

# MO 150

## AUTOMATIC MAIL OPENER

With a 400 item per minute processing capability model MO 150 will reduce the time spent on the mundane chore of opening letters, allowing post to be delivered to the recipient's desk in a far more timely manner. The cut is neat and precise without risk to the contents. A pile of envelopes is simply placed on the feeder and they will automatically be fed through the stacker tray ready to have the contents removed, while the shred is gathered in the collection box.
